All your preventative health care needs in easy monthly payments

Our Wilbury Pet Health Plan (WPHP) spreads the cost of your pet's preventative health needs over a year, including up to 40% discount on vaccinations, wormers and the best flea and tick product available.

Most practices use cheaper products in their plans, but we've decided to use the premium combined flea & tick product on the market, which gives you 3 months' protection after a single tablet or spot on. Plus, you'll get special discounts on long term medication, dental procedures and diet food.

We will text you when any treatment is due and the plan includes 6 monthly health checks to help detect any problems early. We think that this proactive, preventative approach is the best way to keep your pet in tip-top condition for years to come!

The WPHP is not insurance covering illness and injury. Instead it is a way of reducing and spreading the cost of preventive pet care that is not normally covered by insurance policies.

As your pet ages, we've tailored the plans to include more check-ups with the vet, blood tests, blood pressure checks etc., to help catch any issues early. We even have an indoor cat plan with fewer vaccinations and appropriate flea control.

Payment is straightforward, with easy monthly direct debits to spread the cost over the year.

There's no joining fee to be a member and you can leave at any time, in which case, we would just ask you to pay the difference between the cost of any treatments you have received and the payments you have made.

Just call 01273 737924 to find out more and join today!
